

TOUCH SCREEN PROTECTORS

Product Sheet

REID
PRINT TECHNOLOGIES
Innovative Printed Electronics

Reid Print Technologies manufactures our industrial touchscreen protector overlays from MacDermid Autotype Polyester, the same durable material we use to make our Graphic Overlay Panels.

FEATURES

- Durable
- Scratch/Scuff Resistant
- Made From Anti-glare Polyester
- UV Resistance
- Water Resistant

APPLICATIONS

- Hard-Wearing Industrial Use
- Medical & Healthcare
- Mining
- Sports & Recreation
- Defence
- Vehicles

Reid Print Technologies's touchscreen protector overlays are designed to safeguard your touchscreen interface from scratches and wear and tear. Made from durable anti-glare polyester to withstand the harshest environments, our touchscreen protector overlays can be fitted to any standard touchscreen terminal. We know how difficult it can be to get your head around all the technical and design concepts. So give us a call and let us step you through our process that will ensure your next membrane switch project is delivered on time and hassle free.
